

FIRST AID PROCEDURES

Eyes

Hold eyes open and flood with copious amounts of cool water for 15 minutes. Seek medical attention immediately

Skin

Remove contaminated clothing and wash affected area thoroughly under cold running water.

Inhalation

Move to fresh air. If person is not breathing ensure airways are clear and commence CPR. Seek medical attention immediately.

Ingestion

Refer to the Label and Material Safety Data Sheet and follow health hazard and first aid directions. Seek medical attention immediately.

Corrosives

DO NOT induce vomiting. Give a glass of water and seek medical attention immediately.

Spillages

Avoid secondary accidents. If product is flammable extinguish all fire sources. Consult SDS for procedures.
